Message from the President /CEO and Chairman of the Board

Dear Friends and Supporters,

2018 was a year of many challenges and successes in the PCRF, as we continued to grow while addressing the basic humanitarian needs of sick and injured children throughout the Middle East. Over the past 26 years, we have saved the lives of thousands of children, built two pediatric cancer departments, sponsored hundreds of volunteer medical teams from all over the world to treat tens of thousands of sick and injured children in local hospitals, sent over two thousand sick and injured children abroad for free care that they could not get locally, provided tens of thousands of needy children direct humanitarian aid, and empowered thousands of volunteers in dozens of countries to get involved and help us to grow into one of the most important and effective organizations in the world.

Our effectiveness in helping to save the lives of hundreds of poor children in the Middle East each year is matched by the efficiency with which we operate. For seven straight years, we have received the highest rating from Charity Navigator, four out of four stars. As their CEO Michael Thatcher said, "This is our highest possible rating and indicates that your organization adheres to sector best practices and executes its mission in a financially efficient way."

This report will provide you a clear idea about the impact that we are having in the Middle East on the lives of sick and needy children.

PCRF is a privately-funded nonprofit, and we depend on the support of people like you all over the world to reach these children. We can only impact the lives of children through contributions from individuals like yourself.

2018 was our most successful year ever in treating children and providing humanitarian aid to refugees all over the Middle East. 2019 will be another year in which we respond to the many humanitarian tragedies facing children in Palestine, Syria, Lebanon and Jordan, while at the same time building up the health sector in Palestine to reach a higher level of sustainability and efficiency. We hope you will continue to support our work and to ensure that no child goes untreated.

In Peace,

Dr. Khaled Abughazaleh
Chairman of the Board

Steve Sosebee
President & CEO

Charity Navigator Letter

Our 7th Straight 4-Star Rating from Charity Navigator

April 1, 2018

Steve Sosebee
Palestine Children's Relief Fund
P.O. Box 1926
Kent, OH 44240

Dear Steve Sosebee:

On behalf of Charity Navigator, I wish to congratulate Palestine Children's Relief Fund on attaining the coveted 4-star rating for demonstrating strong financial health and commitment to accountability and transparency.

The nonprofit sector is advancing and expanding. As our organizations evolve, so do the desires and interests of our supporters. Astute donors are yearning for greater accountability, transparency, and for concrete results from us. With more than 1.5 million American charities, Charity Navigator aims to accentuate the work of efficient and transparent organizations. The intent of our work is to provide donors with essential information to give them greater confidence in both the charitable decisions that they make and the nonprofit sector.

Based on the most recent information available, we have issued a new rating for your organization. We are proud to announce Palestine Children's Relief Fund has earned our seventh consecutive 4-star rating. This is our highest possible rating and indicates that your organization adheres to sector best practices and executes its mission in a financially efficient way. Attaining a 4-star rating verifies that Palestine Children's Relief Fund exceeds industry standards and outperforms most charities in your area of work. Only 4% of the charities we evaluate have received at least 7 consecutive 4-star evaluations, indicating that Palestine Children's Relief Fund outperforms most other charities in America. This exceptional designation from Charity Navigator sets Palestine Children's Relief Fund apart from its peers and demonstrates to the public its trustworthiness.

Forbes, *Business Week*, and *Kiplinger's Financial Magazine*, among others, have profiled and celebrated our unique method of applying data-driven analysis to the charitable sector. We evaluate ten times more charities than our nearest competitor and currently attract more visitors to our website than all other charity rating groups combined, thus making us the leading charity evaluator in America. Our data shows that users of our site donated more than they planned to before viewing our findings, and in fact, it is estimated that last year Charity Navigator influenced approximately \$10 billion in charitable gifts.

Your achievement and the 4-star rating will enhance your organization's fundraising and public relations efforts. Our favorable review of Palestine Children's Relief Fund's financial health and commitment to accountability & transparency is now visible on our website.

We wish you continued success in your charitable endeavors.

Sincerely,

Michael Thatcher
President and CEO

Medical Missions 2018

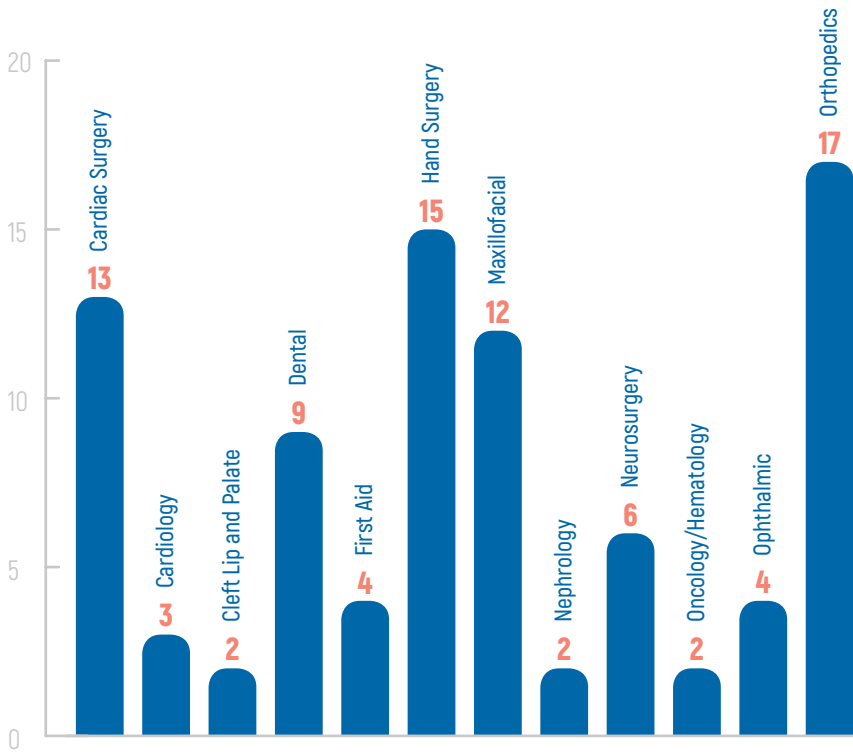

PCRF is the main organization in the Middle East arranging free medical care for sick and injured children who cannot be treated in their home countries. We thank the hundreds of foreign doctors and nurses who volunteered to travel to the Middle East with us in 2018, away from their homes and families, to treat thousands of our children, and also train local medical staff. We sponsored 160 volunteer missions in 2018, providing over 9,400 children the expert medical care they otherwise would not get locally.

2018

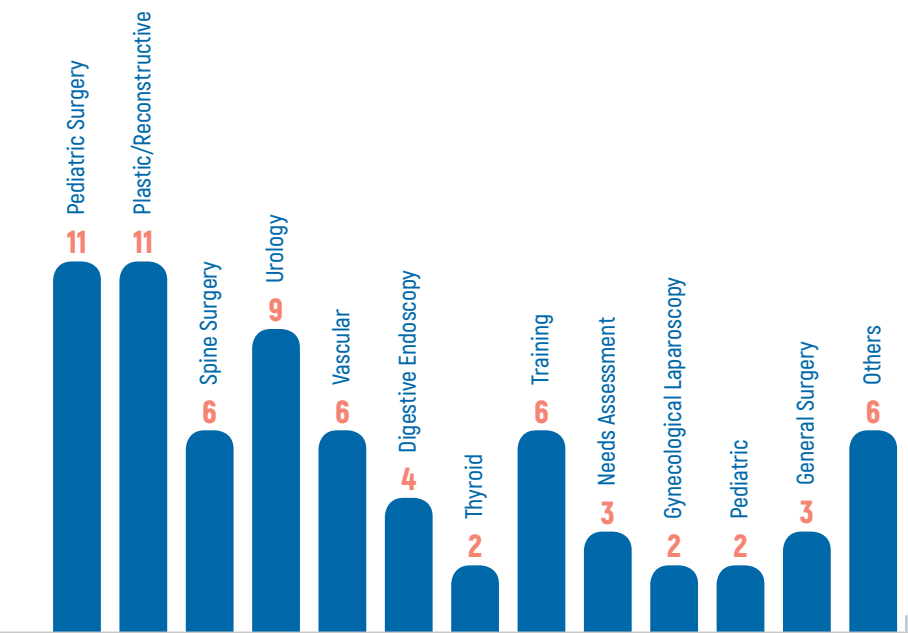

TOTAL NUMBER OF MEDICAL VOLUNTEERS IN 2018: 453

TOTAL VOLUNTEER MEDICAL MISSIONS BY SPECIALTY IN 2018

Treatment Abroad

Since 1992, we have sent over 2,000 injured and sick children from all over the Middle East for free care. In 2018, the PCRF sent 29 sick or injured children outside. We thank the many volunteer doctors and supporters in our chapters and communities who have helped to care for these children during their time away from their families.

Humanitarian Projects

PCRF continues to provide a variety of impactful humanitarian projects for children all over the Middle East, regardless of their nationality or religion. These projects provide urgent aid for neglected and marginalized children, as well as support for institutional development. We support the one-time humanitarian needs of children suffering from poverty, lack of access to medicine and aid, and who are suffering from regional political circumstances in refugee camps and under occupation.

Humanitarian programs

PCRF continues to provide a variety of impactful humanitarian programs for children in Gaza, the West Bank, Lebanon, and Jordan, regardless of their nationality or religion. These projects support the one-time and continuous humanitarian needs of children suffering from poverty, lack of access to medicine and aid, and who are suffering from regional political circumstances in refugee camps and under occupation.

2018

Gaza Orphan Sponsorship

Following the 2014 war on Gaza, hundreds of children were orphaned and in need of basic humanitarian help - food, medicine and clothing - to help survive. PCRF currently sponsors 290 children with these basic necessities.

Monthly Handicapped Child Sponsorship

Since 2000, PCRF has identified chronically ill and injured children throughout the Middle East who need monthly humanitarian support to buy medicine to survive.

LOCATION	NO. OF BENEFICIARIES
West Bank	185
Gaza Strip	131
Lebanon	50

Total

366

One-Time Medical Sponsorship

Each week we identify poor children who need help with medicine, medical care or other humanitarian support that they cannot get due to poverty.

Jordan	144
Lebanon	176
Total	320

Gaza Syrian Refugee Sponsorship

15 Syrian refugee families live in Gaza without any support. PCRF provides these children food, medicine and clothing to ensure they have the basic necessities to survive.

LOCATION	NO. OF BENEFICIARIES
Central Gaza	1
North Gaza	4
South Gaza	10
Total	15

Summer Camps

For over 10 years PCRf has organized summer camps for children who are suffering from physical and mental health challenges in Gaza and the West Bank. These camps are designed to provide the children social activities, as well as cultural, nutritional and hygienic support.

Lebanon Refugee Camp Nursery Nutritional Program

This program targets refugee children living in Lebanon's camps who often suffer from poor nutrition due to their political and economic status, by providing them milk and other support during their time in these nurseries.

Al-Somod Nursery	Badawi Camp	79
TOTAL		595

Gaza Pediatric Mental Health Program

This is a Gaza-only initiative that was organized as an early response to the war in 2014, when tens of thousands of Gaza children were psychologically traumatized from direct exposure to violence. In 2018 our focus was to help train local Community-Based Organizations (CBOs) to help respond to this crisis facing children in Gaza.

Pediatric Cancer Department

Huda Al Masri Pediatric Cancer Department - Bethlehem

In 2013 the PCRF opened the first public pediatric cancer department in Beit Jala Hospital in Bethlehem District, in the name of our founding head social worker, Huda Al Masri. The department has since provided hundreds of children from the occupied territories free care for cancer without having to cross checkpoints and to suffer separation from their families.

Pediatric Cancer Department

Dr. Musa and Suhaila Nasir Pediatric Cancer Department - Gaza

In January 2016, PCRF launched a new project to provide free cancer care for sick children living under occupation and closure in the Gaza Strip. Named after our two co-founding members, the 16 room department will ensure that children with cancer in Gaza get expert care and treatment without having to cross checkpoints and suffer separation from their families.

New Projects

Pediatric Cardiology Department

Hundreds of children each year in Palestine are born with congenital heart disease which cannot be treated locally due to the lack of specialized services. In 2019, PCRF will start building a new pediatric cardiology department at the Bahraini Hospital at the Palestine Medical Complex in Ramallah. This new department will enable treatment for hundreds of Palestinian children with congenital heart disease.

2019

New Projects

Pediatric Intensive Care Department

In 2019, PCRF will break ground on building a new 14-bed pediatric ICU at the Bahraini Hospital in the Palestine Medical Complex in Ramallah. This new PICU will more than double the number of existing beds in the public hospitals in the West Bank and enable sick and injured children to have access to specialized ICU care that they currently have to leave their families to obtain.

2018
