

THE PALESTINE CHILDREN'S RELIEF FUND

Report on Humanitarian Relief Projects For 1999

The Palestine

Children's Relief Fund

1999 was a year of great humanitarian achievements for the Palestine Children's Relief Fund. Hundreds of sick and injured children received important medical care through our efforts. Some went to the US for free medical care, while many more were treated in local hospitals by surgical teams sent to the region. 1999 was also the year we launched our "Healing Hearts" Campaign to fight the problem of congenital heart disease in the region. By sending teams of surgeons to the Middle East, as well as bringing children for cardiac surgery to the US, the PCRf saved the lives of many sick children. Our proudest achievement in 1999 was the decision by the Belgian government to provide long-term training for Palestinians doctors and nurses in cardiac surgery. This will make our goal of training local personnel in cardiac surgery a realistic objective. We will continue to send surgical teams to the Middle East to treat children in Iraq, Palestine, Lebanon, Syria and Jordan. 2000 will be a year of greater humanitarian challenges. There are still thousands of Arab children who need medical care that is not available to them locally. Dozens of PCRf volunteers remain committed to continuing our humanitarian efforts into the new century and we hope that you will support us in our relief efforts. The PCRf offers concerned persons a unique chance to provide important lifesaving help to sick and injured Arab children. We cannot realistically achieve our goals without your generous support.

INJURED ARAB YOUTHS TREATED IN THE U.S.

Burned Children Receive Reconstructive Surgery

Several children from across the Middle East were brought to the U.S. for reconstructive plastic surgery in 1999. In March, one-year-old **Amal Khatib** (at right) from Jenin arrived with her mother for reconstructive surgery by Dr. Jeffrey DeWeese at St. Francis Hospital in San Francisco. Also in March, **Mohammed Abu Nassar** from Jebalya refugee camp had plastic surgery on his burned face by Dr. Michael Peters at Mercy Hospital in San Diego, CA. In April, **Looia Ahmed**, 11, an Egyptian boy living in Dubai, had plastic surgery at the Shriners Hospital for Burned Children in Cincinnati, Ohio. In October, **Magdalene Sadi**, 14, from Jenin had plastic surgery on her abdomen. She was burned by Israeli soldiers during the Intifada and was treated by Dr. Kevin Hopkins of Medical City Hospital in Dallas.

Children from Lebanon Get free Medical Care in USA

In April, **Mahmoud Wali**, 6, from the Bourj Al-Bourajna refugee camp in Beirut had plastic surgery on his head and shoulder by Dr. Kevin Hopkins at Medical City in Dallas, Texas. (Mahmoud is seen at right before and after his treatment)

In July, **Darine Barbar**, 17, from Beirut had an artificial leg rebuilt in Arizona. She lost her leg from cancer in 1988 and was in need of a new leg to enable her to walk again.

Youths Suffering Bombing Injuries Find Relief Through PCRF

In September, 17-year-old **Bourhan Shkeir**, (photo at bottom) from Nablus, arrived in Los Angeles for treatment at the Shriners Hospital for Crippled Children. He lost both hands, a leg and an eye from a landmine and was

accompanied by his mother. In October, **Zeinab Awad**, 14, arrived in Chicago for surgery on her legs following a bomb explosion near her home in Askar refugee camp. In December, **Fersan Ghazi**, 17, from Turmas Ayya, arrived in New York for hand surgery by Jeffery Arlis at Roosevelt St. Luke's Hospital in New York following a bomb explosion in 1998.

Iraqi Children Get Treatment in the US

In March, 6-year-old **Mustafa Hama** (photo are right) returned home to Baghdad following a year of treatment in the U.S. for congenital facial deformities. Mustafa was treated by Dr. Andrew Turk at Stanford Hospital. In April, **Maha Mahdi**, 11, from Baghdad arrived in Los Angeles for treatment of her spinal cord by the Shriners Hospital. In October, **Zahra'a Hamdan**, 11, arrived with her mother from Iraq for open-heart surgery at Riley Hospital in Indianapolis, Indiana. (Iraqi children are brought in cooperation with Life for Relief and Development)

Children with Birth Defects Get Extensive Medical Care Through PCRF

In April, 14-year-old **Aida Ghazal** from Gaza arrived in Houston, Texas for surgery on her spinal cord at the Shriners Hospital, as well as treatment on her eye by Dr. Tom Weiner. In June, **Waleed Salman**, 14, from Nablus arrived with his mother in Atlanta for urological surgery at Eagleston Hospital. In July, 2-year-old **Hussein Abu Tayeh** (photo at right) from Tulkarem arrived in Florida with his mother for reconstructive surgery on his head, hand and feet by Dr. Muntaz Habal. In September, 11-year-old **Nabeela Meshal** from Gaza had spinal cord surgery at the Shriners Hospital in Chicago

Life-Saving Open-Heart Surgery for Girl from Syria

In March, 11-year-old **Solaire Ghanem** (at right with her mother) from the Yarmouk refugee camp in Damascus arrived with her mother for open-heart surgery at Presbyterian Hospital in Albuquerque, New Mexico.

British Cardiac Completes Successful Mission to Jerusalem

In March, the first team of pediatric cardiac surgeons sent by the PCRF to Palestine successfully completed 19 operations at Makassed Islamic Charitable Hospital on the Mount of Olives. The team was from Birmingham Children's Hospital and was led by cardiac surgeon, Dr. B. Sethia (seen at right in surgery). The five-member team also included Dr. John Wright, a pediatric cardiologist, Dr. Tony Moriarity, an anesthesiologist, Surindar Kular, a scrub nurse, and Ruth Cooper, an ICU nurse. The team performed one week of extensive surgery on many sick Arab children.

Italian Cardiac Team Saves Lives in Jerusalem

In early July, an 8-member team of pediatric cardiac surgeons began treating sick Arab children with congenital heart disease at Makassed Islamic Charitable Hospital on the Mount of Olives in East Jerusalem. Led by Dr. Giancarlo Crupi, (below with two patients) a cardiac surgeon from Bergamo, Italy, the team worked for a week on many sick and dying Arab babies, saving the lives of many children who otherwise would not get the care they needed.

Also included on the team were Dr. Adele Borghi, a pediatric cardiologist, Silvana Crisci, the perfusionist, Dr. Claudio Pansera, an anesthesitist, two ICU nurses, Sofia Avogadri and Giovanna Bagini, Cinzia Capelli, a scrub nurse and Bresciani Orietta, a theater assistant. The PCRPF plans to send Dr. Crupi and his team back to the Middle East again in the year 2000 to continue to provide sick children live-saving surgery, as well as train for local doctors and nurses in pediatric cardiac surgery

Belgians are First Pediatric Cardiac Team to Work in Ramallah Hospital

The third team of pediatric cardiac surgeons to operate in Palestine through the PCRf in 1999 arrived in Ramallah Hospital at the end of July to begin open-heart surgery on sick children with congenital heart disease. Led by Professor Guido Van Nooten, head of cardiac surgery at the University of Gent, the 10-member team included pediatric cardiologists, Dr. Daniel de Wolf and Dr. Bert Suys, another cardiac surgeon named Dr. Katrien Francois, Dr. Luc Foubert and Dr. Koen Reyntjens, intensivists/anesthesiologists, Gigi Coppieters and Katrien Van Hooren, the ICU nurses, Filip De Somer, the perfusionist and Mieke Olieslagers, the scrub nurse. The team operated for a week on sick Arab children from all over the West Bank and Gaza Strip, including the first children ever treated in the new catheterization lab at Ramallah Hospital, which was built by the Belgian government and opened in June.

Second Belgian Mission in Results in Training Program

In October, the same team of pediatric cardiac surgeons, plus another anesthesiologist, again worked for a week at Ramallah Hospital. In addition to providing life-saving surgery to dozens of sick babies, the mission also resulted in a decision by the Belgian Government to fund a long-term training program headed by Professor Van Nooten, who the PCRf first sent to Palestine in January.

Adult Cardiac Team Saves Lives in Ramallah

In November, the PCRf sent a 10-member team of adult cardiac surgeons from St. Francis Hospital in Tulsa, Oklahoma to Ramallah Hospital to provide life-saving open-heart surgery and other invasive procedures for sick adult patients from throughout the West Bank. Led by surgeon Dr. Charles Berry and cardiologist Dr. Tom Wisenbaugh, the team performed over two-dozen cardiac procedures in the operating room and catheterization lab. Other members of the team included ICU nurses Debi Lammert, Marilyn Bradley, Kathy Gordon and Patti Averill. In the theater were perfusionist Jim Reagor, as well as Matt Jezik, CST, and nurses Glenda Bullock and Debby Pry. The group brought tens of thousands of dollars worth of medical supplies and equipment and worked for two weeks. They were the first adult team of cardiac surgeons working in the West Bank. The PCRf plans to continue to upgrade both adult and cardiac surgery in the Middle East by sending more teams of surgeons and cardiologists to the region to provide life-saving treatment, as well as training for local personnel

Plastic Surgeon Returns to Gaza for Second time to provide free surgery

In early July, the PCRf sent Dr. Michael Peters, a plastic surgeon in San Diego, to Shifa Hospital in the Gaza Strip,

where he provided free surgery for 17 burned and injured people. This is the second time that Dr. Peters has volunteered to work in Palestine through the PCRf. He also has treated several injured Arab children for free at Mercy Hospital in San Diego. In addition to providing many suffering patients much needed plastic and reconstructive surgery, Dr. Peters also donated important medical supplies and equipment to Shifa Hospital, including a dermatone machine for taking skin-grafts, and tissue expanders for burn patients

Plastic Surgery Team Treats Patients in Nablus

In August, the PCRf sent a six-member team of plastic surgeons and nurses from The Small World Foundation to Rafidiah Hospital in Nablus to provide free plastic and reconstructive surgery for patients with burn injuries, as well as congenital deformities and other disfiguring problems that could not be treated locally. Working over a week period, the team provided highly specialized surgical care to dozens of poor and needy patients from all over the West Bank. Team members included Dr. Kevin Hopkins, Dr. Jeff Arliss, Dr. Paul Berig, and three nurses, Suzanne Walls, Sheilagh Brosky and Gayle Schotte. The PCRf will continue to work with Small World Foundation to send more teams of plastic surgeons to the Middle East in the year 2000.

PCRf Ships Wheelchairs, Rehabilitation Team to Gaza

In July, the PCRf sent a 12-member team of rehabilitation specialists from Hope Haven Ministries to Gaza to fit handicapped patients with wheelchairs that were shipped from the US in a 40-foot container. The wheelchairs were donated to the Palestinian Union of Sport for Handicapped, who then distributed them to over 150 poor handicapped patients. There are hundreds of needy handicapped patients in the refugee camps and towns of Gaza who do not have wheelchairs. This shipment provided hundreds of families a new chance at mobility and a better life. The PCRf plans to work again with Hope Haven to provide other medical shipments to needy patients in the Middle East in the next year.

Other Medical Supplies and Equipment Shipped to Palestine

The PCRf continued to help institutions and doctors in Palestine provide better care to poor patients by providing them medical supplies and equipment donated from the US. In July, 12 infusion pumps were sent to Makassed and Ramallah Hospitals to upgrade their ICU units. A month later, a shipment of disposable surgical supplies were donated by the PCRf to Rafidiah Hospital in Nablus. In October, ophthalmic surgical supplies were sent to the Eye Hospital in Gaza City. This is the second shipment of ophthalmic supplies sent to the Eye Hospital in the past year.

2000

Medical Projects for the year

Treating Injured Youths in North America:

The PCRf will continue to bring injured and sick Arab children from all over the Middle East for free medical care in the U.S. These are children who cannot be adequately treated in their homeland. We have already arranged free care for several youths and are in need of plane tickets to cover their travel expenses. We also need funds to cover the other basic expenses that the children have while in-country, such as telephone calls to their families, clothing and food.

"Healing Hearts" Campaign:

The PCRf will continue save the lives of sick children and train local doctors by sending at least eight more teams of pediatric cardiac surgeons to the region in 2000. We will continue to work with the teams that we sent there last year from Europe, namely the Belgian team from the University of Gent, as well as the Italian team from Bergamo. Each team will go three times in 2000, with the government of Belgium assisting in covering the plane tickets of the Belgian team. We will also send a pediatric cardiac team from Switzerland, led by Dr. Antonio Corno, and an American team called "Project Open Hearts" from Colorado to do adult cardiac patients.

Other Surgical Teams:

The PCRf has several other surgical teams lined up to go to Palestine and Lebanon in 2000 to provide specialized surgery for injured and sick youths, as well as training for local physicians and nurses. We will continue to work with "Small World Foundation" to send two teams of plastic surgeons to the Middle East. One team will go to Lebanon to provide plastic surgery for burned and disfigured patients in the refugee camps, while the other team will continue to work in the West Bank, as they did in 1999. We are also planning on sending a team of ophthalmic surgeons from "Sight to the Blind" foundation. We sent this team to Gaza in 1998 and will send them to Lebanon in 2000 to provide ophthalmic surgery on refugees in the camps..

Medical Shipments:

The PCRf will continue to provide health institutions and local organizations donated medical equipment and supplies in the following year, based on our ability to locate these items. One particular shipment will entail a 40-foot container of cardiac surgery supplies donated by "Project Open Heart" to be sent to Ramallah Hospital for our visiting teams to use.

Budget for Relief Projects in 2000

1-Treating Injured Youths in North America:

1. 25 Round-trip plane tickets	\$25,000.00
2. Clothing, Housing and Food for 25 Cases	2,000.00
3. Telephone Expenses for 25 children in the U.S.	<u>2,000.00</u>
Total for Treating Injured Youths	\$29,000.00

2-"Healing Hearts" Campaign 2000

Italian Bergamo Team, (8 members): January

1. Plane Tickets for 8 Team members, \$500 each	\$4,000.00
2. Hotel for nine days, 8 people, \$50.00 per night	3,600.00
3. Food for nine days, \$20.00 per person	1,440.00
4. Van Rental for nine days, \$100 per day	<u>900.00</u>
Total for January, 2000 Italian Cardiac Team	\$9,940.00

Belgian Gent Team (8 members): February

1. Food for nine days, \$20.00 per person	\$1,440.00
2. Plane ticket for Coordinator	1,200.00
3. Van Rental for nine days, \$100 per day	<u>900.00</u>
Total for February, 2000 Belgian Cardiac Team	\$3,540.00

Swiss Team (8 members): March

1. Plane Tickets for 8 Team members (500 each)	\$4,000.00
2. Hotel for nine days, 8 people, \$50.00 per night	3,600.00
3. Food for nine days, \$20.00 per person	1,440.00
4. Van Rental for nine days, \$100 per day	<u>900.00</u>
Total for March, 2000 Swiss Cardiac Team	\$9,940.00

American Adult Cardiac Team (15 Members): April

1. Plane Tickets for 15 Team members (1000 each)	\$15,000.00
2. Hotel for nine days, 15 people, \$50.00 per night	7,500.00
3. Food for nine days, \$20.00 per person	2,700.00
4. Van Rental for nine days, \$100 per day	<u>900.00</u>
Total for April, 2000 American Cardiac Team	\$26,100.00

Italian Bergamo Team, (8 members): May

1. Plane Tickets for 8 Team members, \$500 each	\$4,000.00
2. Hotel for nine days, 8 people, \$50.00 per night	3,600.00
3. Food for nine days, \$20.00 per person	1,440.00
4. Van Rental for nine days, \$100 per day	<u>900.00</u>
Total for May, 2000 Italian Cardiac Team	\$9,940.00

Belgian Gent Team (8 members): May

1. Food for nine days, \$20.00 per person	\$1,440.00
2. Plane ticket for Coordinator	1,200.00
3. Van Rental for nine days, \$100 per day	<u>900.00</u>
Total for May, 2000 Belgian Cardiac Team	\$3,540.00

Italian Bergamo Team (8 members): July

1. Plane Tickets for 8 Team members, \$500 each	\$4,000.00
2. Hotel for nine days, 8 people, \$50.00 per night	\$3,600.00
3. Food for nine days, \$20.00 per person	1,440.00
4. Van Rental for nine days, \$100 per day	<u>900.00</u>
Total for July, 2000 Italian Cardiac Team	\$9,940.00

Belgian Gent Team (8 members): September

1. Food for nine days, \$20.00 per person	\$1,440.00
2. Plane ticket for Coordinator	1,200.00
3. Van Rental for nine days, \$100 per day	<u>900.00</u>
Total for September, 2000 Belgian Cardiac Team	\$3,540.00

Total Budget for "Healing Hearts" Campaign: **\$76,480.00**

3-Other Surgical Teams**American Plastic Surgery Team**

To Lebanon (6 members): March, 2000	
1. Plane tickets, \$1,000.00 each	\$6,000.00
2. Hotel for one-week, \$50.00 per person	2,100.00
3. Food and Travel in-country, \$100 per day	<u>700.00</u>
Total for Lebanon Plastic Surgery team, March	\$8,800.00

American Ophthalmic Surgery team

To Lebanon (6 members): April, 2000	
1. Plane tickets, \$1,000.00 each	\$6,000.00
2. Hotel for one-week, \$50.00 per person	2,100.00
3. Food and Travel in-country, \$100 per day	<u>700.00</u>
Total for Lebanon Ophthalmic Surgery team, April	\$8,800.00

American Plastic Surgery Team

To Palestine (6 members): October, 2000	
1. Plane tickets, \$1,000.00 each	\$6,000.00
2. Hotel for one-week, \$50.00 per person	2,100.00
3. Food and Travel in-country, \$100 per day	<u>700.00</u>
Total for Palestine Plastic Surgery team, October	\$8,800.00
Total Budget for Other Surgical Teams	\$26,400.00

4-Shipping Medical Supplies

Container of Cardiac Surgery Disposables	\$7,500.00
--	-------------------

TOTAL BUDGET FOR RELIEF PROJECTS

\$139,380.00
