Message from the President/ CEO and Chairman

Dear Friends and Supporters,

For twenty-four years, the Palestine Children's Relief Fund has grown and evolved into one of the Middle East's most active grassroots NGO's, serving the needs of sick and injured children, regardless of their nationality, race, or religion, thanks to people like you who make our work possible. This annual report for 2016 is a record of our achievements over the past year, in which we were able to respond to the humanitarian needs of children all over the Middle East.

In 2016, we sponsored and ran 136 volunteer medical missions from all over the world to the West Bank, Gaza, Lebanon, and Jordan, providing 2,160 patients much-needed surgery in such areas as pediatric cardiac surgery, plastic and reconstructive surgery, urology, orthopedic surgery, neurosurgery, maxillofacial surgery, and general pediatric surgery. Another 4,326 children were screened by our expert volunteer doctors, and many of them received help through other means, such as our one-time sponsorship program.

We also managed to send 43 sick and injured kids for free care in the USA, Europe, the UAE and other locations in 2016. Hundreds more children - many of them Syrian refugees - had surgery or other medical aid through our sponsorship programs in Lebanon and Jordan.

Our humanitarian projects continue to have a huge impact on the lives of thousands of children all over the region. One example is our pediatric mental health project in Gaza, which includes therapeutic summer camps, as well as sponsoring counseling and medicine for the most at-risk traumatized children. We also ran sponsorship programs for hundreds of chronically ill children in need of monthly support, Gaza war orphans, Syrian refugees in Gaza, and we sponsored nurseries in Lebanon's refugee camps.

The Huda Al Masri Pediatric Cancer Department in Beit Jala Hospital is our proudest achievement, ensuring that nearly all children in the West Bank who need treatment for cancer and other blood diseases can be cared for locally, while we also made great strides in building the Dr. Musa and Suhaila Nasir Gaza Pediatric Cancer Department, which will save the lives of children who currently have limited access to care there.

We are proud to have received in 2016 our fifth-straight, four-star (highest) rating from Charity Navigator, with a transparency and accountability rating of 100%, as well as being recognized as one of the most efficient privately-funded NGOs working in the Middle East. We also received an additional recognition of our service to Syrian refugee children. We recognize how valuable your support is, and we want to ensure that we maximize the use of our resources to help as many children as possible.

As we grow in the coming years, the PCRF will focus more on training local doctors and addressing the deficiencies in the local health-care systems to create better services and care for our children in need. We cannot further address the long-term health-care deficiencies and continue to address the urgent needs of its children without your generous support. We hope that this 2016 annual report demonstrates our determination to serve the most marginalized and neglected children in the region, as well as our commitment to running a professional, transparent, hard-working and compassionate nonprofit organization. Thank you for making our work possible.

In solidarity,

We Received Our Fifth Straight 4-Star Rating from Charity Navigator with Perfect Scores in Financial and Accountability & Transparency

"We are proud to announce Palestine Children's Relief Fund has earned our fifth consecutive 4 - star rating. Receiving four out of a possible four stars indicates that your organization adheres to good governance and other best practices that minimize the chance of unethical activities and consistently executes its mission in a fiscally responsible way. Only 5% of the charities we rate have received at least 5 consecutive 4 - star evaluations, indicating that Palestine Children's Relief Fund outperforms most other charities in America. This "exceptional" designation from Charity Navigator differentiates Palestine Children's Relief Fund from its peers and demonstrates to the public it is worthy of their trust."

2016 PCRF ANNUAL REPORT

TREATMENT ABROAD CASES

The PCRF is the main organization in the Middle East arranging free medical care for sick and injured children who cannot be treated in their home countries. We thank the many doctors and hospitals who treated our children on a humanitarian basis in 2016, as well as the hundreds of volunteers from all over the world who gave their time as host families, translators, and in countless other ways to help our children while they were abroad for treatment. We help children based on their needs, and not based on their religion, nationality or with any political intention. We sent 43 children from all over the Middle East for free care in 2016.

Medical Missions to the Middle East: 2016

In 2016, the PCRF sponsored 136 volunteer medical teams from all over the world to the Middle East, working in public (Palestine) or PRCS (Lebanon) hospitals. These teams provided a variety of surgical and medical services, including cardiac surgery, plastic & reconstructive surgery, urology, orthopedic surgery, hand surgery, spine surgery, maxillofacial surgery, oncology and general pediatric surgery. On these missions, 4,326 patients were screened by our doctors for further follow-up care, and 2,160 patients had free surgery in the public sector.

Medical Missions to the West Bank

In 2016, the PCRF sponsored 69 volunteer medical teams from all over the world to the West Bank, working in Jenin Hospital, Rafidiah Hospital in Nablus, Thabet Thabet Hospital in Tulkarem, the Palestine Medical Complex in Ramallah. Beit Jala Hospital in Bethlehem, and Alia Hospital in Hebron. These teams provided a variety of surgical and medical services, including cardiac surgery, plastic & reconstructive surgery, urology, orthopedic surgery, hand surgery, spine surgery, maxillofacial surgery, oncology and general pediatric surgery. On these missions, 2,369 patients were screened by our doctors for further follow-up care, and 1,124 patients had free surgery in the public sector.

69 Missions2,369 Screened cases1124 Total Number of Operations

Medical Missions to the Gaza Strip

In 2016, the PCRF sponsored 51 volunteer medical teams from all over the world to the Gaza Strip, working in Shifa Hospital and the Pediatric Specialized Hospital in Gaza City, Al-Agsa Hospital in Deir El Balah, and the European Gaza Hospital and Nasser Hospital in Khan Younis. respectively. These teams provided a variety of surgical and medical services, including cardiac surgery, plastic & reconstructive surgery, urology, pediatric orthopedic surgery. hand surgery, spine surgery, maxillofacial surgery, oncology and general pediatric surgery. On these missions, 1,286 patients were screened by our doctors for further follow-up care, and 694 patients had free surgery in the public sector.

51 Missions1,286 Screened cases694 Total Number of Operations

Medical Missions to Lebanon/Jordan

In 2016, the PCRF sponsored 16 volunteer medical teams from all over the world to Lebanon and Jordan, working mainly in Palestine Red Crescent Hospitals like Al Hamshiry in Saida and Safad in Badawi refugee camp, treating both Palestinian and Syrian refugees. These teams provided a variety of surgical and medical services, including plastic & reconstructive Surgery, pediatric orthopedic surgery, hand surgery, maxillofacial surgery, and general pediatric surgery. On these missions, 671 patients were screened by our doctors for further follow-up care, and 342 refugees had free surgery.

20**16**

Monthly Child Sponsorship Program

Since 2000, the PCRF has run a Monthly Child Sponsorship Program in which hundreds of chronically ill or disabled children in Palestine and Lebanon's refugee camps are paired with donors abroad to have their basic humanitarian medical needs met. These are children whose families are too poor to provide them the care and support that they need to live better lives. The PCRF does not give cash to families, but rather buys for the child their medicine or other needs directly from vetted vendors, to ensure a high level of transparency and accountability.

One-Time Surgery Sponsorship Program

In 2016, 145 Palestinian and Syrian refugee children were sponsored for surgery in Lebanese and Jordanian hospitals. These are children who were not able to travel abroad for treatment due to their refugee status or their medical condition. The PCRF appeals to sponsors through our weekly newsletter to help cover the cost of these operations, and often partners with other organizations to reduce or share in the cost of surgery.

20**16**

One-Time Medical Sponsorship Program

In 2016, 320 Palestinian and Syrian refugee children in the West Bank, Gaza, Lebanon and Jordan were sponsored for a variety of medical and humanitarian needs through our One-Time Sponsorship Program. These are children who were not able to get care through their own families due to their economic situation. The PCRF appeals to sponsors through our weekly newsletter to help cover the cost of their humanitarian needs. The PCRF does not give cash to families, but rather buys for the child their needs directly from vetted vendors, to ensure a high level of transparency and accountability.

Tot al number of children in sponsored in this project: 320

59 Lebanon/Jordan/Syria, 156 West Bank, 105 Gaza

Gaza Pediatric Mental Health Program

Following the 2014 war on Gaza, the PCRF launched a program to identify children who were suffering from psychological trauma and in need of counseling and support. We have been partnering with the Gaza Community Mental Health Programme and the Center for Mind Body Medicine to help support the mental health needs of hundreds of children, both individually and through group sessions, and by providing medications and sending new counselors into the field. In 2016, 291 Gazan children were enrolled in this project, getting specialized help to address their PTSD or other issues related to anxiety and depression.

20**16**PCRF
ANNUAL

REPORT

Summer Camps 2016

Since 2001, the PCRF has sponsored summer camps throughout the West Bank, Gaza and Lebanon to integrate handicapped and mainstream children to help break down some of the social and cultural stigmas impacting children with special needs. The summer camps in 2016 were:

Name of Camp	Location	Partners	No. of Beneficiaries
Dahkat Amal Camp	Central Gaza	CMBM + Zakat Funds / USA	66
Farha Camp	South Gaza	CMBM + Zakat Funds / USA	66
Farah and Marah Camp	North Gaza	CMBM + Zakat Funds / USA	68

Total		666

2016

PCRF ANNUAL REPORT

Gaza Syrian Refugee Sponsorship Project

Over the past few years, many families fleeing the war in Syria have arrived in Gaza without any form of support for their children. In 2016, the PCRF launched a new project to identify the children of Syrian refugees in Gaza and to link them with donors abroad who help to cover their basic food, clothing and medical needs, which their families are too poor to provide them. The PCRF does not give cash to families, but rather buys for the child their medicine or other needs directly from vetted vendors, to ensure a high level of transparency and accountability.

Gaza Orphan Sponsorship Project

Following the 2014 war on Gaza, hundreds of children were orphaned and in need of help to cover their most basic humanitarian needs. The PCRF launched a project to identify these children 'to enable them to get their basic food, clothing and medical needs met. The PCRF does not give cash to families, but rather buys for the child their medicine or other needs directly from vetted vendors, to ensure a high level of transparency and accountability.

64 South Gaza

Other Humanitarian Projects 2016

In 2016, the PCRF responded to the urgent needs of children in the West Bank, Gaza, Lebanon and Jordan by initiating and sponsoring 24 humanitarian projects, helping 11,569 children.

Total number of beneficiaries reached: 24

13 West Bank, 6 Gaza, 5 Lebanon/Jordan

2016

PCRF ANNUAL REPORT

CHAPTER & SPECIAL EVENTS

Throughout the year, our chapters provide care by hosting travel abroad cases, as well as planning and organizing a wide range of events to help raise awareness and funds for our ongoing medical and humanitarian projects. We also are fortunate to have individuals who support the PCRF through special events.

Some of these activities in 2016 included Wissam Al Jayyoussi's "Goodwill Journey" motorcycle ride across the world to raise funds for our Gaza cancer department, and Team Palestine for PCRF's many activities, including running in the "Right to Movement" Palestine Marathon, where PCRF Cape Town Chapter volunteer Mervin Steenkamp won the marathon on behalf of our children.

HUDA AL MASRI PEDIATRIC CANCER DEPARTMENT

In April of 2013, the PCRF opened the first and only public pediatric cancer department in honor of our head social worker, Huda Al Masri, who helped to build the PCRF for seventeen years, before passing away from leukemia in 2009. We are now able to provide excellent medical care for cancer patients who previously had to go abroad for care, at great hardship to them and their families.

In 2016, sixty-five new patients from all over Palestine were admitted into the department to be treated for a variety of cancer types and blood disorders. The PCRF continues to train and support the MOH staff, and we are also the only organization providing child-life services for the children in the department, such as tutoring for children missing school, birthday parties for kids in the department, sponsoring Red Nose Clown visits, hosting an annual Christmas party, and opening in 2015 the Huda Al Masri Healing Garden at the hospital for the children to play during their stay in the hospital.

DR. MUSA AND SUHAILA NASIR GAZA PEDIATRIC CANCER DEPARTMENT

In 2015, the PCRF launched a new major project to build the first and only pediatric hematology and oncology department to provide expert services for the children living in the Gaza Strip. Currently, Gaza children fighting cancer have to travel abroad for the most basic care for cancer, crossing checkpoints and having to get permits, which is not conducive to their long-term treatment. The privately-funded project will hopefully open in 2017 and start providing our children there the care that they need in Gaza.

20**16**

2016
PCRF
ANNUAL
REPORT

SPECIAL PROJECTS

In 2016, the PCRF initiated several projects in support of developing the health-care infrastructure, training, and services for people all over the Middle East. As we grow as a nonprofit, we are looking for ways to address the deficiencies in the health-care needs in the West Bank, Gaza and Lebanon.

Orthopedic Surgeon Sponsored for Fellowship in India

In 2016, the PCRF sponsored the fellowship of orthopedic surgeon Dr. Abdul Rahman Marridi in hand surgery at Ganga Hospital in Coimbatore, India. Dr. Marridi had been trained through the PCRF's "Palestinian Orthopedic Educational Training" (POET) Program, which is focused on the training of young surgeons at the Palestine Medical Complex (PMC) in Ramallah. Dr. Marridi will return to Palestine in a year to provide hand surgery as a specialization that currently doesn't exist, requiring many patients to go without care or abroad for treatment.

Recovery Room in Rafidiah Hospital

In 2016, the PCRF refurbished and supplied with modern equipment a post-op room for Rafidiah Hospital, which is to improve the care of patients after surgery. This project was supported by the PCRF Chicago chapter and was a boost to the hospital's ability to better care for patients.

2016

PCRF
ANNUAL

REPORT

Medical Clinic for Beit Hanina Village

Through a grant from a community in the USA, the PCRF supplied a new clinic in Beit Hanina near Jerusalem medical equipment and support to develop a clinic to serve the marginalized population there.

Sterilization Machine Sent to Gaza

In the fall of 2016, the PCRF-Italy chapter shipped a sterilization machine to the European Gaza Hospital in Khan Younis to help improve their operating theater and their infection control challenges.

20**16**

Dialysis for Badawi Refugee Camp

During the year, the PCRF partnered with several other NGOs in Lebanon to contribute to the building of a dialysis clinic in the Badawi Refugee camp in northern Lebanon. This will serve the Palestinian refugee population who currently have to travel many hours south to Beirut for dialysis services.
